FOREWORD

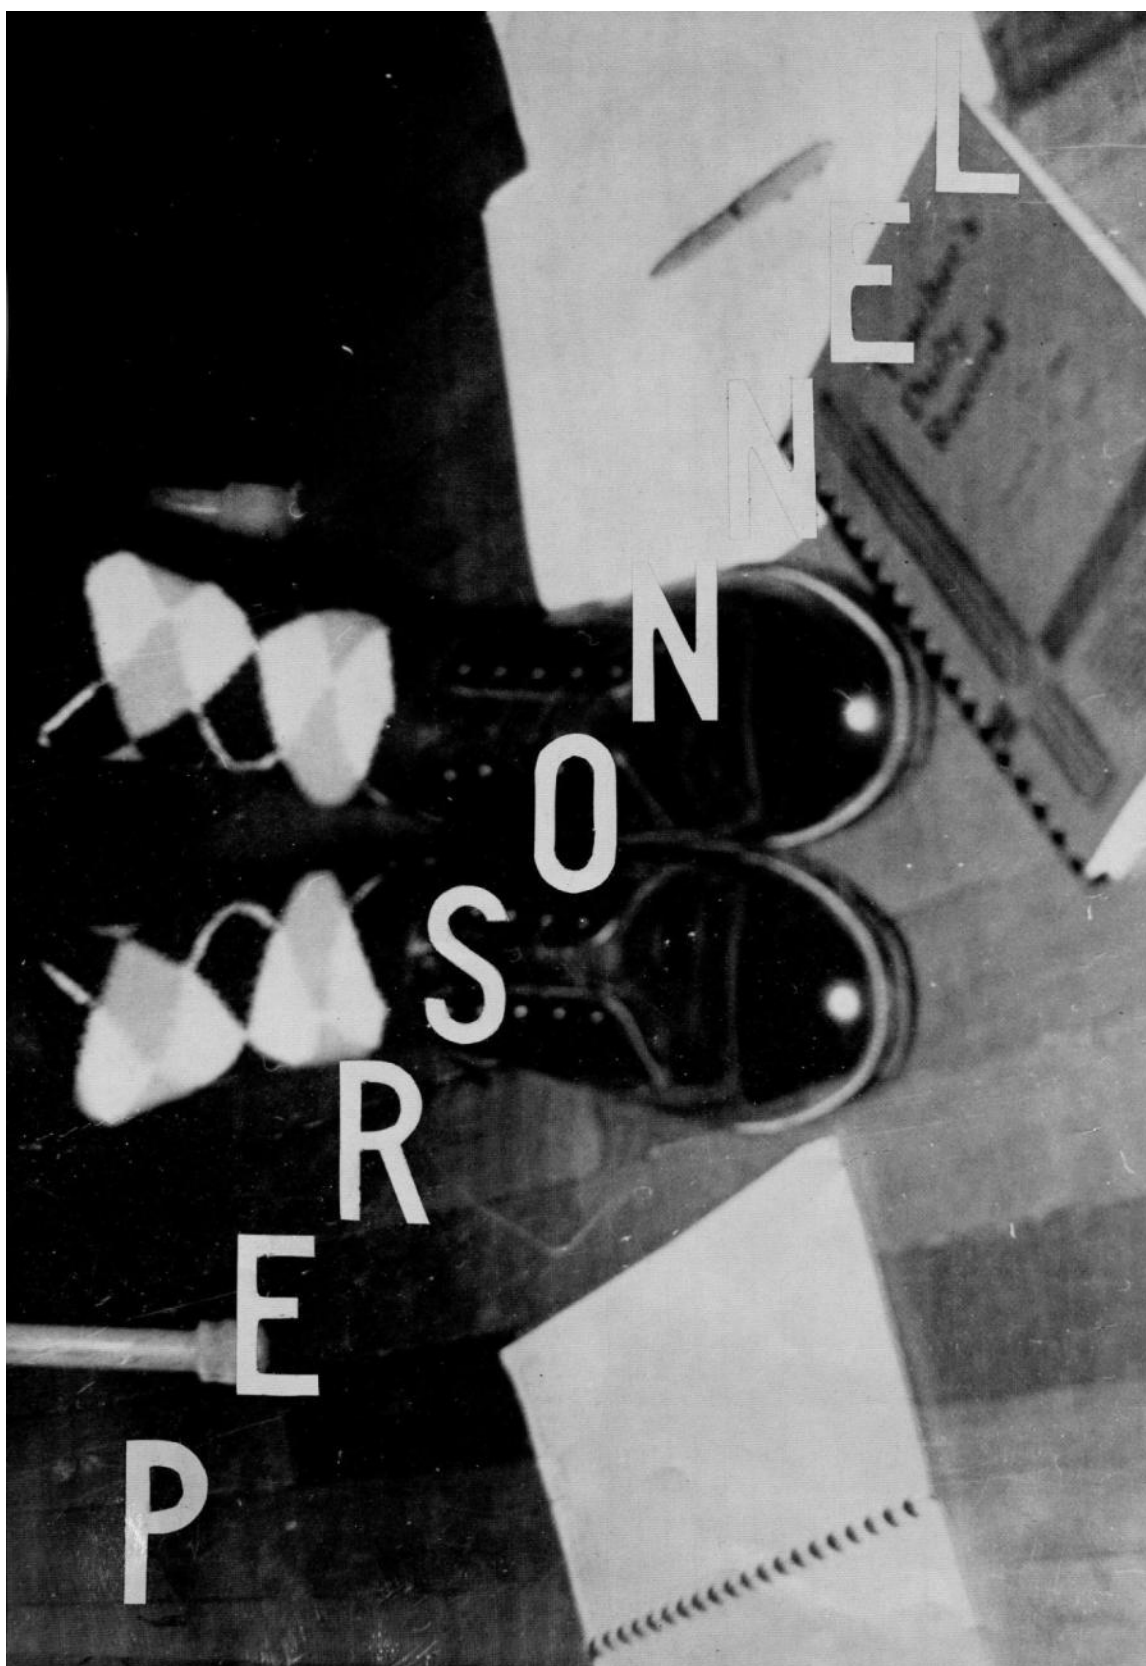

This is the first "forward" to appear in a Villisca High School Annual. I am proud I was asked to write it.

The BLUEJAY this year contains many evidences of the changes which have taken place since the effective date of the first Villisca Community School District. These changes have taken place simultaneously with social, scientific and governmental changes of international importance. I believe local changes such as have taken place in our school system are often a reflection in peoples minds of international or national developments.

The world will continue to influence and cause changes wherever people are alert to coming needs. Each student who learns this lesson early can help bring these changes about in a peaceful manner beneficial to all men. May we all continue to serve this important function.
